POLICY PATROL ENTERPRISE

Take control of your email.

COMPRESSION, DISCLAIMERS AND SPAM FILTERING

Policy Patrol Enterprise includes all features of Policy Patrol Zip, Policy Patrol Disclaimers and Policy Patrol Spam Filter, offering advanced compression, disclaimer and anti-spam functionality.

CONTENT CHECKING

Policy Patrol includes sophisticated keyword filtering using word score, case sensitivity and word pattern matching.

ATTACHMENT CHECKING

Policy Patrol allows you to check attachments for type, size, name, number of attachments and spoofing. Messages with large attachments can be delayed and dangerous attachments can be removed.

MESSAGES ON HOLD

Messages can be quarantined, deleted or delayed. Furthermore, messages on hold can be automatically deleted or moved to another folder after a specified number of days.

CUSTOMIZATION OF NDRs AND DSNS

Policy Patrol allows administrators to customize their Delivery Status Notifications (DSNs) and Non Deliverable Reports (NDRs).

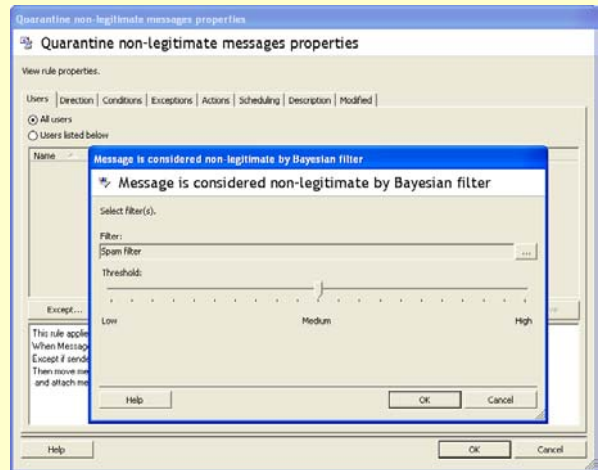

ANTI VIRUS (OPTIONAL)

Additional anti-virus modules can be purchased for scanning messages and attachments for viruses, email exploits and malicious scripts & macros.

Try it out for free! Download a fully working 30-day evaluation version from:

SYSTEM REQUIREMENTS

- Windows 2000/2003 or Windows XP Professional.
- Microsoft .NET Framework
- Microsoft Exchange 2000/2003/5.5, Lotus Notes/Domino or other mail server.

EMAIL AND NETWORK NOTIFICATIONS

Policy Patrol can send email and network notifications to inform persons that messages have been delayed, quarantined or deleted, or to send auto replies.

EMAIL MANAGEMENT FEATURES

Policy Patrol includes several email management features, such as changing message priority, printing messages, adding attachments, converting to plain text, changing From: field, running a program, and much more.

FLEXIBLE RULES & PERMISSIONS

Policy Patrol rules can be applied to selected users, groups, domains or public folders and can have user or group exclusions. In addition, advanced user permissions can be applied to each folder.

REPORTING

Reports can be created on the number of messages sent and received, their size, destination, types of attachments and rules triggered.

ARCHIVING

Policy Patrol includes the possibility to archive messages and their attachments in XML, CSV or SQL archives.
